WORK EXPERIENCE

Itsme Inc., Toronto — *Developer*

April 2016 - August 2016

Worked with a small team on various web components for a 3D image capture company. Was a developer in building a sign-in kiosk app using Backbone, HTML and CSS, which was used in production for Samsung sponsored events. Created a Samsung themed reports interface, as well as a user management admin panel.

Queen Margherita Pizza, Toronto — *Supervisor*

October 2014 - January 2016

Responsible for daily reports, reservations management and product ordering, as well as bartending for a busy restaurant. Skills gained include conflict resolution, organizational skills, and team leadership.

PERSONAL PROJECTS

Homes4Queers, *homes4queers.herokuapp.com*

Homes4Queers is a housing app built around an existing Facebook community. As a full stack developer for the project, I continue to work with the community to bring it to life.

TicTacToe, *github.com/sofanisba/jquery_tictactoe*

A Javascript and JQuery game with a retro flair. Even keeps score.

EDUCATION

Bitmaker

Graduated April 2016

Completed an intensive program designed to bring students to competency in standard programming concepts and proficiency in using Ruby, Rails and Javascript to build web apps.

University of Toronto, B.A.

Graduated July 2013

Double major in Classical Civilizations and Philosophy. Gained experience and understanding of modern symbolic logic and key critical thinking skills.

ABOUT

I am a web developer with a diverse set of work and personal experience. I intend to continue exploring the most challenging and creative aspects of my career, and learn as much as possible to become an invaluable part of the tech community.
